Subject: You've given the farm to Microsoft ...

I am thoroughly disappointed and disgusted with the DoJ's recent treatment of the Microsoft monopoly.

The proposal of Microsoft to 'saturate' schools with their product is equivalent to the extremist Islamists (not to be confused with true Islam) have taken over (by offering for FREE) the general education of Pakistan children in their militant madrassas.

Why? In return for the chance to 'hook' young minds on their militant views.
